## July 4th 2020 Pulps – New arrivals

### Greetings

Welcome to our latest grouping of fresh to market pulp magazines. Contained within is one of the nicer groupings of hero pulps that we have had in some time. The big three; Doc Savage, Shadow and Spider are well represented here with the Spider going back to the third issue and many Baumhoffer Doc covers. In addition to the hero titles there are ten Spicy issues and many other high demand pulps including a very scarce Mystery Adventures two Robert E. Howard Weird Tales.

### Buying

Most all of the pulps we sell come from collectors such as yourselves who have decided to either lighten the load or in this client's case take the money we pay him and put it into a different area of collectibles. We are actively buying so if you have any pulps or first edition science fiction fantasy or horror hard covers drop us a line. We pay competitive prices and you don't have to wait months to get payment from an auction house.

### Pulp Price Guide

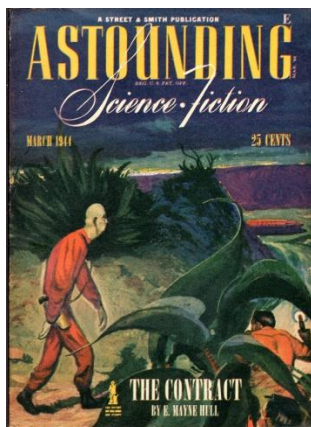

Do you have one yet? If not, we sell the latest edition which just came out a few months ago. List price is \$39.95 plus shipping. Say the word and I will send you a PayPal invoice to pay from.

### Comic Book Collectors

A special greeting to all the new clients who are comic collectors. I have noticed that there are a lot of you getting into the pulps. As a former comic book store owner and Overstreet advisor I want to welcome you to the hobby. It's a great hobby filled with lots of great people. There are a lot of tie-ins between the comic and pulp worlds. For instance, did you know that Doc Savage had a Fortress of Solitude before Superman did? If you need any advice or have any questions feel free to drop me an email as I am happy to be of help.
